**A statement issued by the Al Awda Health and Community Association  
Another hot night in the courtyards and facilities of Al Awda Hospital  
in the Northern Gaza Strip**

Several hours before the truce entered; The Israeli occupation forces deliberately targeted facilities of Al Awda Hospital in Tal al-Zaatar – Northern Gaza Strip, where the following facilities were targeted:

1. The central pharmaceutical warehouse building in the hospital, as this led to damage to the central warehouse building and the destruction of many medicines, medical supplies and consumables.
2. Ambulance and Emergency Vehicle facility, which led to the almost complete destruction of (2) ICU ambulances, in addition to a car designated for medical supplies and transportation, and another for logistical services.
3. Re-targeting the accommodation department building on the third and fourth floors of the eastern building of the hospital, which includes (38) residential beds, and two operating rooms, which led to them being completely out of service. It is worth noting that this building had been previously targeted, which led to the martyrdom of (3) Doctors, in addition to a patient's companion, and (3) nursing staff injured.
4. The solar energy system, which led to its almost complete damage and out of service.
5. The medical gas facility and major damage to the medical gas network.
6. The fuel and electrical generator facility, which led to the complete destruction of the fuel tanks.
7. Serious damage to the hospital administration building.
8. Regular and filtered water tanks intended to supply the hospital with water.
9. The hospital buildings were damaged by flying shrapnel and were targeted by gunfire.

Herby Al Awda Health and Community Association confirms that:

- Al Awda Hospital in Tal Al-Zaatar will remain committed to providing health services to the injured and beneficiaries of its services. It has not stopped providing its services since the beginning of the aggression, and will continue to do so.
- Its (90) basic medical teams and employees is still present.
- Its commitment to work standards in times of conflicts and wars

Al Awda appeals to the rest of the free world to the need to provide protection for medical personnel in accordance with the provisions of international humanitarian law and humanitarian and human rights norms. It will seek with everyone to hold the occupation accountable for its crimes committed against Al Awda Hospital and AWDA Association facilities are considered medical objects protected under international humanitarian law.
